

PROPOSAL FOR ELECTIVE DIDACTIC ACTIVITIES (ADE) A.A. 2021-2022

TITLE ADE	Pulmonary nodule management: from diagnosis to therapy				
PROF /DR	M. Montella, S. Cappabianca, G. Vicidomini, C. Della Corte, V. Nardone				
SCIENTIFIC DISCIPLINARY SECTOR (SSD)	MED/08; MED/36; MED/21; MED/06; MED/36				
GENERAL AND SPECIFIC OBJECTIVES (MAX 500 CHARACTERS)	The patient with pulmonary nodule needs a clinical approach that includes more specialists for a correct diagnostic-therapeutic course. This multidisciplinary approach is the core of the "Multidisciplinary Oncology Group" which aims to put more specialists in comparison, and tend as a coordinated team, to offer the patient the most effective diagnosis and therapy. The goal of this elective teaching activity is to show future doctors how these specialists coordinate to manage the critical issues of these patients in the most effective way.
